

This application is helpful for Admin, Guidance and Student Success groups. The app provides concise, sortable, selectable reports that can summarize your biggest Attendance issues on a couple of pages.

As well, the app can quickly and easily generate 'Attendance Letters' which can be sent home, if that is your practice. No user data-entry required. Data is easily imported (*mouse-click*) from the Consecutive Days Absent Report.

The students at beginning of this report have most absences.

Also, it is easy to find students with perfect attendance - at the end of this report.

(Towards end of report...)

Absence Letters are easily generated in conjunction with MS Word Mail-Merge document which is included.

Mailing labels are generated. Printed in same order as letters, for easy attachment.

Dear Parent/Guardian:

Re: Lois Beleskey

The purpose of this letter is to report a pattern of irregular attendance. Lois has missed several days of school, the details of which are indicated below. We are concerned that continued absences will have a negative impact on her academic progress.

Lois needs to understand the expectations of attending school punctually, every day and while in school, putting forth the best effort possible. We understand that there may be circumstances that make it difficult for students to attend school regularly. We would like to discuss options with you that may be of assistance in improving Lois's attendance.
