Notes:

Req - Number of requests for all Courses in this Group

Tot Req is the number of requests (sum of all requests if a Combined Class) multiplied by 'Credit' value

Max Size and Flex derived from 5th (or 4th and 5th) character(s) of course code or from Limited Facility etc. Exception Table.

Max Size for Combined Classes uses logic provided. (Logic can be seen on 'Help' tab.)

Avail Seats Available Seats = (# Sections * Max+Flex) - Requests

'?dept' in the Dept. field indicates that the Department field is blank - The Course Information should be updated in Trillium® and then re-save the Course Request Tally Report and re-import.
